At first I paid little attention to a slight pain across the small of my back, but finally it grew so bad I could scarcely attend to my work. Now I stooped it was with the greatest difficulty that I could straighten and the kidney accretions were unnatural, distressing and annoying, and also disturbed my rest nights. Several Contracts Awarded for Work on Orient Road.

Building of Line From Pacific Coast to Be Commenced.

STILWELL RETURNS.

Will Await Action of the Guardian Trust Company.

This Company Will Likely Look After Financing of the Road.

Kansas City, June 27.-President A. E. Stilwell, of the Kansas City, Mexico & Orient, has returned from New York and will remain here until after the meeting of the directory of the Guardian Trust company to be held next Friday, when the matter of the connection of the trust company with the new railroad to be built by Mr. Stilwell will be decided upon.

President Stilwell has awarded several contracts for work on the new line, and construction from Port Stilwell, the Pacific coast terminus of the road, eastward, will be begun within a few days, as will also work at different points on the route between Kansas City and the

Mr. Stilwell confirmed the report almr. Stilwell confirmed the report already published that a contract covering a period of 15 years and providing for close traffic interchange between the Chicago, Milwaukee & St. Paul and the Kansas City, Mexico & Orient had been signed, under which through train service will be maintained from Chicago to Port Stilwell, where connections will be made with steamship lines to the Orient and South America.

made with steamship lines to the Orient and South America.

While Mr. Stilwell refused to confirm it, a report, which it is believed is entitled to credence, is current that another important traific arrangement for the new road to the Orient is about to be signed. As the contract with the Milwaukee covers the territory north of Kansas City pretty thoroughly it is evidently with a line reaching some other territory and, while those informed on the subject speak of it very guardedly, it may not be amiss to speculate that this new contract is to give the Orient road entrance to St. Louis. The Texas & Pacific was suggested in this connection, but it is not certain that is the tion, but it is not certain that is the line, in question. It is possible the con-tract is to be with a California line.

FRISCO'S NEW LINE.

Sapulpa, I. T., June 27 .- At noon yesterday the first train over the St. Louis, Oklahoma & Southern railway, the Frisco's new Texas line, entered Okmulgee, the capital of the Creek Nation, thirty-one miles south of Sapuipa. Two hundred and ten miles from Sapuipa the road will penetrate the big coal belt in the Creek Nation, just north of the north fork of the Canadian river. Henrietta, forty-five miles south from Sapuipa, will be the mining center. Wetumka, one of the oldest of the Creek towns, will be touched by the new road, while Holdenville on the Choctaw line will be the next, and Francis, named after D. R. Francis, Missouri's former governor, will be an important point, as will Raff, the new health resort at the big sulphur springs in the Chickasaw-Nation.
